### DETAILED ACTION

Applicant's arguments and amendments dated 2/12/07 are persuasive. However, the claims are still rejected under Hattori et al previously made of record.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7-9, 14, 15 and 20-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Hattori et al (4360353).

Figure 1 shows a crankshaft 1 with a variable pitch pulley 10 held together by a spring 16 and a variable pitch driven pulley 20 held apart by spring 27. The pulley system may drive a water pump (col.1, line 12). The driven pulley may directly operate the pump (col.6, line 23).
